2 PLEAD GUILTY TO DRIVING CARS WHILE DRINKING

Two motorists arrested by state police of the Gettysburg substation over the week end on charges of driving their automobiles while under the influence of intoxicants signed pleas of guilty Monday afternoon before Justice of the Peace Robert P. Snyder.

In addition to a charge of drunken driving, Philip D. Roche, South Mountain, pleaded guilty to a charge of failing to reveal his identity following an accident.

A car driven by Roche sideswiped automobiles of Lawrence L. Hefner, Pikesville, Md., and Ray H. Baker, Taneytown, R. I., Sunday night near Zora, police said. He furnished \$500 bail on each of two charges for his appearance in sentence court in November.

E. H. Bellow, Abbotstown, arrested by state police on a drunken driving charge early Monday morning in Abbotstown, was released on \$500 bail for sentence court after also signing a guilty plea.

A ten-day notice was sent today by Justice of the Peace John H. Baschore to Richard D. Orner, Bendersville, on a charge of driving to the left of the center line of the highway, filed by state police.

Dale R. Dunkinson, 229 W. Middle St., will receive a ten-day notice from Justice Baschore on a charge of reckless driving filed by borough police. The latter said he drove out of Railroad St. onto Carlisle St. and endangered oncoming traffic.

NEW POLIO CASE AT EMMITSBURG

Danny Gerry, seven-year-old son of Jennie Motter, E. Main St., Emmitsburg, is reported in a satisfactory condition in the Baltimore City Hospital.

He is the latest person from this area to be stricken with polio. The child's illness was diagnosed on Saturday night, and he was removed to the Baltimore Hospital. He is reported as without actual paralysis, but with weakened muscles.

At the same time Dennis Boyle, six-year-old son of Mr. and Mrs. Joseph Boyle, Emmitsburg, who was stricken with bulbar polio, is reported as progressing "very well" and an attempt to be made today to remove the child for a brief period from the "Iron Lung" in which he has been confined since removal to the Baltimore hospital. MEMORY AIDS ARE EXPLAINED TO ROTARIANS

The best memory aid is a sense of the ridiculous, Charles L. Eicholtz, New Oxford businessman, told the Gettysburg Rotary Club Monday evening at its meeting in the YWCA.

Eicholtz outlined the use of 16 "key words" as the basis for a system of recalling things one wishes to remember, but pointed out that the way to use the system is "first to paint the picture of the key word, large, so it will stick in the memory, and then associate the thing you wish to remember with the key word in such a ridiculous fashion that the picture will remain with you."

In urging the membership to use some system for remembering, Eicholtz told the group: "Studies made by scientists in memorizing and forgetting reveal that the average person forgets 40 per cent of what he has memorized within the first 20 minutes after memorizing it, and by the end of the week has forgotten 75 per cent of what he had originally memorized."

Announce District Meet

"Because of that fact, if we go to the trouble of trying to memorize anything at all, we should make a little extra effort to use some system that will guarantee we remember more than 25 per cent of it," Eicholtz was introduced by Vice President Walter B. Lane, President Richard A. Dreas presided at the meeting with 16 present. He reported that the next district conference will be held November 30 and December 1 and 2 at the Penn Harris Hotel in Harrisburg.

Major William Lipsey, professor of military science and tactics at Gettysburg College, will be the speaker at next Monday's meeting of Rotary.

The reckless driving information was filed before Justice of the Peace Lee Reary, West York.

College Life Is Partnership Between Student, School, President Langsam Declares

"Today represents the official beginning of a partnership, a partnership between you who applied for admission here, and Gettysburg College, which chose you in particular from among its many applicants," Dr. Walter C. Langsam, new president of the college, said to 400 freshmen gathered Monday afternoon in Brua Chapel.

"We hope very strongly that this partnership will be for life, because we shall be interested in you, not merely as students for the next two

DR. W. C. LANGSAM

or three or four years, but in all the many years during which you will be alumni." Dr. Langsam continued in his keynote address at the chapel service and his welcome to the new students.

"We hope that your own interest and affection will be reciprocal, and will remain part of you throughout all your life."

Dr. Waltemyer Presides

The service was the first event of Orientation Week, following registration. The Rev. Dr. W. C. Waltemyer presided. Greetings were also brought by Burgess William G. Weaver. A reception was held Monday evening at the home of Dr. and Mrs. Langsam, Carlisle St., for the students.

"In thinking of what to say to you today," Dr. Langsam said, "I pondered the first half of the word 'freshman,' namely, 'fresh.' On an impulse I opened the unabridged dictionary in my office and found the following definitions for the word 'fresh,' many of them seemingly highly apt: 'unwithered, unfaded; hence, having undiminished excellence and unimpaired strength.' Let the sophomores beware."

"Also, 'unspoiled, untainted; as fresh mutton.' Or again, 'inexperience or impractical; unsalted or unpickled.' In slang, its meanings were given 'full of ignorant concern and presumption; lacking the sense of propriety.' Finally, depending on whether you use Scottish or English slang, fresh also seems to mean either 'tipsy' or 'sober.'"

"The synonyms given were interesting: 'Blooming, bright, new, untarnished, unskilled, verdant, vigorous, young.' Sophomores would probably seek the antonyms, and they are given as 'blase, decayed, dim, exhausted, moldy, seedy, weary, worn.'"

Stresses Personal Interest

"And so now I should like to speak briefly to you, unspoiled, unwithered, inexperienced and unsalted young men and women, suggesting some of the things you will find and some of the things you should do at Gettysburg College."

"It is the personal interest in you which, you will find, is one of the

distinctive features of Gettysburg. As a relatively small college we cannot and do not wish to compete with the large universities in marble palaces and chromium laboratories. On the other hand, we do emphasize things which the larger university, because of its size and impersonality, must ignore; namely, the dignity and importance of the individual as a being who was created in the image of God.

"You are here, obviously, to get what we call a college education. That means, in the first place, applying yourself to the task of accumulating a certain amount of basic factual knowledge and learning how to use this knowledge in your everyday life. Gettysburg offers you the opportunity to acquire a broad general background, and more specific knowledge in one or more special fields of your choice—all in preparation for either graduate study or a profession and, in any case, in preparation for life."

Says Professors Friends

"A good college education means, secondly, getting all the benefit you can out of the personal interest of your professors in your development. You will find that each of your professors wants to be not merely your teacher, but your friend. He will know you by name and will want to know your interests, your problems, your thoughts and ideas. Meet him halfway in this endeavor and your life will be richer and more meaningful."

"Getting a college education at Gettysburg means, in the third place, using the many counseling facilities that are available to you. Gettysburg provides an unusually broad opportunity for its students to talk things over with experienced friends. There is the chaplain, Pastor Korte, whose fulltime job it will be to look after your spiritual welfare and comfort. Then there are the deans, who really are very friendly people and not at all like some textbook ogress. Dean Tilberg is the academic dean, Miss Lee is dean of women, and Mr. Fryling is dean of men. It is their whole job to look after your academic and personal welfare. They want to help you avoid mistakes in both your curricular and extracurricular activities. They want to assist you in successfully completing your course work and in learning how to live successfully in society."

Other Counsellors

"There is, next, the director of guidance, Dr. Duck. He, too, is a fulltime counsellor, ready to help you discover your strong points and your weak ones. He will not tell you what to do; he will only try to help you help yourself. But he will not throw a lasso to catch you; you (Please Turn to Page 3)

Milk Floods Town Streets This Morning

When a delivery truck spilled milk over the roadway at York and Stratton Sts. about 8:30 o'clock this morning, a fire truck was needed to clean up the mess.

Borough police reported that several cases of milk in paper cartons dropped from a Penn Dairies truck. The milk ran over the street and caused several cars to skid on the slippery surface.

Borough Police Officer Charles W. Culp Jr. directed traffic while Assistant Fire Chief Donald E. Staub hosed down the street and washed off the spilled milk.

Typhoon Hits Wake Island; Living Quarters Demolished

HONOLULU (AP)—A raging typhoon with winds up to 140 miles an hour lashed tiny Wake Island yesterday, demolished living quarters and communications and sent the sea crashing over the entire island.

Mountainous seas and torrential rains battered the island which is only 15 feet above sea level all afternoon, subsiding only late at night.

Air-sea rescue planes left Honolulu's Hickam Field and Kwajalein this morning with food, water and medical supplies for the 600 men, women and children marooned on the coral speck 2,300 miles west of here.

The military transport Ainsworth was diverted from its course about 700 miles southeast of Wake and ordered to evacuate the stricken residents and transients.

Scattered messages received here painted a picture of devastation.

An unidentified Civil Aeronautics Authority maintenance man cranked up the radio of a grounded plane and gave first details of the disaster.

The only injuries reported were comparatively minor: One man with a broken leg, another with fractured ribs.

Gordon T. Maxwell, a Pan American Airways executive, reported to his San Francisco office from Wake that all the company's facilities were destroyed. He said no Pan American personnel was hurt.

He said water covered the island and the marooned victims were sleeping in grounded planes.

During the storm, Maxwell said, everyone took refuge in World War II underground Japanese gun emplacements and ammunition vaults.

Two air-sea rescue planes are expected to reach the stricken island today. The Ainsworth is expected there tomorrow.

CAA dispatches sent via a grounded plane's radio requested the removal of all but essential personnel. The Hawaiian Sea frontier said that would mean about 90 per cent of 600 employees and family members attached to the CAA, the Weather Bureau and various airlines.

The most serious problem on Wake is the disruption of its limited water supplies. Restoration is expected to take some time.

NEW OFFICERS FOR LEGION TO BE INSTALLED

New officers of the Albert J. Lentz Post of the American Legion will be installed October 6 at the post home on Baltimore St. Commander Harold Wentz announced Monday evening at the September session of the post.

District Commander Earl Sollenberger, York, will be in charge of the installation of Commander-elect Donald M. Swope and other officers at the October meeting. Wentz said.

Tuesday evening, December 22, at 7 o'clock, was announced by House Manager Wilmer Drachs as the date of the annual Christmas party to be held by the Legion for the children of members. Arrangements have been made for an animal circus, clowns and jugglers to appear as part of the program, he added.

District Meeting

The post voted to express its appreciation to the Emmitsburg American Legion post for its "generous and whole-hearted assistance" in connection with a recent funeral. The local post provided the pallbearers and color guard for the funeral, held in Waynesboro, while the Emmitsburg post furnished its full firing squad. G. Noel Flynn reported. A \$15 gift was voted to be sent to the firing squad of the Emmitsburg post.

Paul Anzenberger reported on the completion of the softball season and expressed the thanks of the Legion softball team to the post for a dinner served the team for its services during the summer.

The quarterly meeting of the 22nd District will be held Thursday evening at York, Adjutant William T. Timmins Jr. announced.

MORE MAY GET GAS FOR WINTER

The waiting list for winter heating gas in Gettysburg and Adams County will probably be reduced soon, The Manufacturers Light and Heat Co. announced today. Prospects of an easing of restrictions were enhanced as the result of action started by the Columbia Gas System, of which the Manufacturers Light and Heat is a member firm.

Julian N. Estep, manager of the gas company here, said the first step was taken Monday at a hearing before the Ohio Public Utilities Commission. Columbia System affiliates in Ohio are requesting approval of a plan to provide gas heating for more homes there. At the same time, officials disclosed plans to take similar action in Pennsylvania.

Improved gas supplies from long distance pipelines out of Southwest-United States now enable Columbia companies to accept additional heating customers, Estep said. The companies originally requested restrictions on new gas heating to protect service to existing customers, but Columbia now has enough additional gas to supply the proposed number of new customers.

In Pennsylvania, the Manufacturers Light and Heat Co. plans to notify the PUC that improved gas supplies put the company in position to take on additional heating customers and that it will start approving applications soon.

FIND NO CLUE TO HIT-RUN DRIVER

State police of the Gettysburg substation said today no trace had been found of the hit-and-run driver whose automobile is believed to have killed 17-year-old John Elwood Chapman, Orrtanna, R. I., early Monday morning on the Orrtanna-Cashtown Rd., a half mile south of Cashtown.

Chapman's body was found at the side of the highway at 4:45 a.m. Monday by Ivan Shultz, Orrtanna, a truck driver for Rice, Trew and Rice, Biglerville, on his way to work. Chapman had suffered a compound fracture of the skull and a fractured hip, according to Dr. C. G. Crist, coroner.

Authorities said it was believed Chapman had been struck while walking along the road between 50 and 100 feet from the place where his body was found.

He leaves six brothers and sisters. Funeral services will be held Wednesday afternoon.

BIG STANDPIPE TO BE CLEANED BY AUTHORITY

Beginning about noon on Wednesday, and continuing for the balance of the week through Saturday, water pressures in Gettysburg will be reduced, particularly in the higher points of the borough, while the standpipe is cleaned, repaired and repainted, John H. Long, manager of the Gettysburg Municipal Authority, which operates the water system, announced today.

In notifying, through The Gettysburg Times, the users of water of the reduced pressures during this period, Mr. Long appealed for cooperation and said: "We will make every effort to restore normal water supply as soon as possible."

The standpipe, last painted in 1937, will be emptied of water, rust removed, welding of rivets and other parts done where necessary, and two coats of non-poisonous, odorless and tasteless paint applied on the interior, by hand.

Holds 500,000 Gallons

The outside will be sealed, and one coat of rust-proof primer paint applied, and at least one coat of aluminum over it. The work will be done by the R. W. Shull Co. of Gloucester, N. J.

The standpipe measures 30 feet in height with a 60-foot diameter, and holds 500,000 gallons of water. While it is being painted the reservoir on Cemetery Hill will be used. It holds 1,000,000 gallons, but is lower than the standpipe, thus causing a reduction in pressure.

The standpipe job is the final part of the improvement program set up by the Authority when it purchased the water company in 1949.

INDICT MAN FOR SHOTGUN DEATH NEAR AIRPORT

COUDERSPORT, Pa. (AP)—Alfred L. Sallade, 35-year-old airport operator and father of three children, has been indicted by the Potter County grand jury for the shotgun slaying of Charles P. Van Pelt, 19-year-old Harvard University sophomore.

A jury for the trial will be chosen Sept. 22, said Dist. Atty. Robert J. Flint.

Sallade is charged with murder in the death of the youth, only child of Mr. and Mrs. David Van Pelt, of Rosemont, a Philadelphia suburb.

Bergdoll Testifies

Sallade also faces two counts of assault in the shooting of Erwin Bergdoll, 19-year-old University of Pennsylvania student and son of Grover Cleveland Bergdoll.

Bergdoll, released from the Potter County Hospital here last Saturday, testified as a witness before the grand jury yesterday.

Sallade, a World War II civilian flight instructor, is being held without bail in Potter County jail.

Shot Near Office

The two youths were shot as they walked near the office at Sallade's airport in Cherry Springs State Park east of here Sept. 1.

The airport operator said he fired because he thought the youths were robbers who twice previously had looted his office.

The boys were on a camping trip in this North-Central Pennsylvania area, with two other lads and the father of one.

NEWLYWEDS FOUND SLAIN

LAS VEGAS, Nev. (AP)—As friends made plans for an elaborate wedding for them, a young couple—apparently honeymooning—was found shot to death yesterday in a lavish penthouse of the swank Flamingo Hotel.

Officers said murder and suicide were indicated, although no notes were found. Investigators were without a clue to the motive for the deaths.

The man was identified as Adrian Lionel Grodnick, 19, son of Manuel Grodnick, wealthy New York clothing manufacturer, and the girl as Betty M. Baron, 25, pretty brunette daughter of William Baron, Los Angeles apartment house manager.

Friends in Los Angeles said the couple had planned a formal wedding in Beverly Hills, Calif., next Tuesday.

Detectives said the girl wore a wedding ring. The couple had registered Sept. 10 as newlyweds. Among their possessions was a Los Angeles County health certificate, required before obtaining a marriage license in that county. The certificate was dated Sept. 3.

REJECT CANON ON EDUCATION

BOSTON (AP)—The Protestant Episcopal church in the United States refused yesterday to adopt a new canon aimed at the religious education of the children of "mixed marriages."

The proposed addition to Episcopal Church law would have forbidden Episcopalians from agreeing to the Roman Catholic law which requires children of a "mixed marriage" to be brought up as Catholics.

The ruling was proposed by the church's House of Deputies but disapproved by the House of Bishops at the 57th triennial general convention of the church.

In another move yesterday, the House of Deputies refused to concur in the action of the House of Bishops to deprive retired bishops of their votes in general conventions.

Both the clergy and lay delegates joined in rejecting that proposed amendment to the church's constitution.

STATE DRAFT QUOTA IS 6,204 FOR NOVEMBER

HARRISBURG (AP)—State Selective service headquarters today fixed Pennsylvania's draft quota for November at 6,204 men, highest since the start of the Korean War in 1950.

Col. Frank J. Graf, assistant state draft director, said the record high quota was due primarily to the fact that original inductees are now starting to be discharged from the armed services.

No one under 20 will be called in November, he told a reporter.

The November quota contrasts sharply with those earlier this year: 452 in June; 1,762 in July; 1,398 in August; 763 in September, and 8,844 in October.

Have 6,000 Pool
"Pennsylvania has a pool of 6,000 men examined and acceptable," Graf said. "That will be cut sharply by the November call. Pennsylvania has had a little better break than other states because of the high ratio of enlistments and reserve calls."

The national quota for November is 47,000 men.

Graf explained that with the present pool of 6,000 men available for induction, a large number of registrants will be called up next month for physical examinations to maintain a pool for future quotas.

SAYS TV TRIES TO TEACH MORALITY

WASHINGTON (AP)—Radio-television industry spokesmen told a congressional committee today that what they are trying to teach is a clean living and good morals, rather than "hoochy kootchy" and liquor drinking.

Leaders in the radio-TV field were called before a House interstate subcommittee investigating the content of programs now on the air waves.

The inquiry was ordered by the House after some Congress members had complained that too much objectionable matter was being broadcast—and telecast—with emphasis on the art of pouring liquor and on "hoochy kootchy."

To keep the record in balance, the committee called hearings for today and tomorrow to obtain the comments of the National Association of Radio and Television Broadcasters, American Broadcasting Co., Mutual Broadcasting System and Dumont Television Network.

Industry views were summed up in a statement by Hollis M. Seavey, director of Washington operations for MBS.

The Adams County Court Monday afternoon handed down an order directing that judgment be entered in favor of Marvin L. and Pearl E. Fishel, York, against Grace Chubb, Abbottstown.

As a result of the order, Mrs. Chubb is to pay the jury fees, \$833 to Mervin Fishel and \$18 to Mrs. Fishel as a result of an accident between Mrs. Chubb's car and the Fishel vehicle May 13, 1951, at Abbottstown.

EXPERTS PICK YANKEES; OTHER RACE A TOSS-UP

By JOE REICHLER
AP Sports Writer

Can you figure this? The Yankees lead Cleveland by 2½ games while Brooklyn leads the Giants by three. The Yankees must play eight of their remaining 11 games on the road while the Dodgers have eight of their 11 at home.

Yet the experts—those who know baseball best—figure the Yankees a cinch to win the American League pennant and declare the National League race a toss-up between the Brooks and Giants.

Why? The Yankees have the confidence of champions, a veteran baseball man said. "They win the big ones. They don't scare easily. They have the solid men in Allie Reynolds, Vic Raschi, Ed Lopat, Yogi Berra and Phil Rizzuto. "The Indians may be a better all-round club. But they lack the confidence of champions."

And the Dodgers? "If it were any team but the Dodgers," the learned baseball man replied, "I'd say I don't know how they could lose with a three-game edge."

Can't Forget '51 "But the trouble with the Dodgers is they cannot forget last year. Especially when this race is following last year's script almost to the letter. Every time the Giants win and they lose, the Dodgers are reminded of last year's debacle. They know it can happen because it already has happened."

"The Dodgers are in trouble even with their big lead. Their pitching staff is in a bad way. If the Giants had the services of Larry Jansen to go along with Sal Maglie and Jim Hearn, they'd be sure to pull off another miracle. As it is, it's going to be another squeaker right down to the finish."

Neither manager—Leo Durocher of the Giants nor Charlie Dressen of the Dodgers—is doing any talking these days. Not even after yesterday's victories that left them still three games apart with 11 to go.

Big Bats Win Brooklyn received another shoddy pitching performance—this time from Carl Erskine—but their big bats atoned for the pitcher's lapse. The Brooks pounded out an 11-5 triumph over the Cincinnati Reds. Jackie Robinson and Duke Snider hammered two homers apiece.

Sal Maglie looked like the Maglie of old as he pitched the Giants to a six-hit, 12-1 victory over the St. Louis Cardinals. A nine-run sixth inning—the biggest single inning of the season for the Giants—made it easy for the 35-year-old right-hander.

Boxers, Senators Lose The Indians and Yankees were idle yesterday. They renew warfare today with the world champions facing the Tigers in Detroit and the Indians taking on the Washington Senators in Cleveland. The Dodgers play host to Pittsburgh in a night game and the Giants took on the Chicago Cubs in the Polo Grounds.

In yesterday's remaining two games—both in the American League—the Chicago White Sox downed the Boston Red Sox 4-2, and the Detroit Tigers scored a 5-4 victory over the Washington Senators.

GHS VICTORY PARADE RULES ARE OUTLINED

A definite set of rules to be followed in connection with the holding of football "victory" parades by Gettysburg High School students has been agreed upon by school and borough officials.

Permission from Burgess William G. Weaver is required for the staging of a parade and in order to give protection to the marching students as well as to avoid traffic problems, a procedure to follow has been outlined.

When a parade is to be held students must notify George Forney, athletic director, who in turn will notify the policeman in charge at the game. The officer will then secure permission from Burgess Weaver.

Parades will be headed by the police car and police will also give protection at the rear of the parade. All parades will be held after parking areas at the high school are cleared.

The line of march will be from the high school building, to Baltimore St., Lincoln Square, and return. At all times the marchers will keep to the right of the street in order to permit the usual flow of traffic.

Local students hope they will have an opportunity to stage their first parade following Friday's game here with Delone.

The fourth annual horse show, sponsored by the Emmitsburg Lions Club, will be held at Emmitt Gardens, Emmitsburg, next Sunday.

According to Robert E. Daugherty, chairman, activities will start at 11 a.m. and continue until about 7 p.m. Horsemen from four states are expected to vie for championship honors. Twenty-six classes are scheduled and include roadster, jumper, three and five-gait, pleasure, western and ponies.

Threatening Letter For George Shuba

NEW YORK (AP)—The Federal Bureau of Investigation and Brooklyn Police were investigating today a threatening letter received by George Shuba, Brooklyn Dodgers outfielder, warning him not to set foot in Ebbets Field again this season.

The typewritten letter was postmarked yesterday, from Elmont, Long Island, N. Y., and was delivered to Shuba at the Brooklyn ball park.

It was the second such letter received within a week by a Dodgers player. Relief pitcher Joe Black got one last week, before the last Dodgers-New York Giants series of the year.

HOCKEY BOARD TO MEET TODAY

BUFFALO, N. Y. (AP)—The American Hockey League Board of Governors scheduled a meeting today to consider a proposal by the National Hockey League for relaxation of the no recall rule.

The Governors met with Clarence Campbell, NHL president, all day yesterday and into the early hours today.

Campbell outlined a draft rule under which NHL teams would be allowed to keep 22 players, including the 16 regulars, on a protected list, while all others could be drafted by lower ranking clubs for \$10,000.

Campbell told a reporter after the session the National League would institute the rule immediately if it were accepted by the American League.

The present AHL rule prohibits NHL clubs from recalling before the end of the season players sent to the AHL on loan.

Campbell said the present NHL rule allows each club a reserve list of four goalies and 40 other players. He said this arrangement permits many National League caliber players to be held down in the minors.

In other games of top interest locally on Friday, Chambersburg is host to Lebanon, York plays at Hanover and Western High of Washington, D. C., is at Mechanicsburg.

College Life

(Continued from Page 1)

"Next there is the alumni secretary, Mr. Cenna, who is deeply interested in you while you are still an undergraduate. He wants to meet you and get to know you now, so that by the time you become alumni you and he already have become old friends. Your fellow-students, especially those who have been here a little longer than you, want to help you know and love Gettysburg. You will find them friendly, even the sophomores among them. Indeed, you already have living proof of their devotion to Gettysburg and friendship for you in the SCA counselors who are here with you. They are voluntarily giving up part of their vacation in order to make you feel at home and catch the G-burg spirit.

"Finally, let it be symbolic that the door to the president's office opens inward. Feel free to come and see me whenever you think that I may be of help to you. I do not promise always to say yes to every request, but when I must say 'no,' you will be given the reasons for the denial. It is one of the pleasant aspects of my job to be able to mix with students and come to know them.

"At Gettysburg, further, you will find opportunity for study under a first-rate faculty, with reasonably adequate equipment, a good library and surroundings of natural beauty. There is opportunity also for participation in many extracurricular activities: Athletics and sports, journalism, radio, SCA work, debate, dramatics, fraternities and sororities, departmental clubs and many more. In work and at play you will learn at Gettysburg. If you are receptive to such learning, the relevance of Christianity to every phase of your life and development. For Gettysburg is a Christian college not merely because it has a chapel and a required course in Bible, but because of the atmosphere of faith which imbues both those who teach and those who study here.

Take Part In Activities
"And now, what should you do to make your stay at Gettysburg pleasurable and profitable for all concerned? For even if it were true, as a songwriter put it, that 'the best things in life are free,' you still have to go out and get them; they don't come running after you.

"First, take full advantage of the staff's and faculty's offers of friendship or skill or knowledge and experience. Secondly, take part in a variety of college activities, both to supplement your booklearning and to teach you cooperation in social activities. Thirdly, set apart a certain time, even though it be a brief time, each week for general reading

aside from your required homework. Though it may be hard to believe, you will probably never again have as much time to read as during the next few years.

"Fourthly, learn to judge your fellow-students on the basis of their individual worth rather than by clothes or spending money or family connections; get to know boys and girls of widely differing backgrounds, not merely those whose heritage is similar to your own. Fifthly, always act, on campus and off, in a manner to make us all proud; act so that the community in saying 'there goes a Gettysburg student' will simultaneously be uttering a compliment. Learn also the art of withholding judgment

and delaying opinions on any matters until you really have possession of the relevant facts. Be quick to praise, but slow to criticize; and never be a rumor-monger.

Seek God's Guidance
"Write home often, not merely for money, but to share with family and friends the joys and sorrows and pleasure and work and discoveries of these tremendously important years in your life. And finally, and most important, set aside some time every day during which to meditate and commune with God. He always is the One Who cares for you most; learn, if you have not already done so, how to speak to Him and seek His guidance in all you do.

"And now, once more, welcome, class of '53!"

General achievement tests were given this morning in Science Hall, Glatfelter Hall and the college library. At another student gathering in Brin Chapel this afternoon Dean W. E. Tilberg spoke on "Your New College Home." Informal group meetings were held from 3:30 to 4:30 p.m. in faculty homes and this evening the Student Christian Association planned a "campfire" in Weidensall Hall (SCA Building) from 8:30 to 10 p.m.

Today's Talk

THAT TONGUE OF YOURS
One of the most useful, yet often the most troublesome and evil member of our physical make-up is that one known as the human tongue. We would have a difficult time keeping alive and healthy did we not have it to guide us in our taste and eating; and what a misfortune if we did not have it to say kind things with, so as to inspire others!

We hear the expression that "had he held his tongue," or "his tongue got the better of him," and so on. Plutarch wrote: "Remember what Simonides said — that he never repented that he had held his tongue, but often that he had spoken." How many times each one of us has regretted that we spoke, when to have said nothing might have made all the difference.

A famous expression is given to noted speakers by calling them "silver tongued orators." Meaning their fluency with words and expression. Self-control of the tongue can be made to be one of the great arts! You will recall that as Christ was called before Pilate, and was prodded by him, "he answered not a word."

The tongue has often been called our most unruly member. Undoubtedly it is. We can never be sorry for things we do not say. Nor are we held accountable for them. The tongue gets us friends, and it gets us in trouble, too, so that we cannot be too careful in its handling. Ambrose Bierce was a brilliant writer, but he said so many bitter things that he was known by many as "Bitter Bierce."

The tongue might well be referred to as the mind's public relations member, for indeed we come to know a man or woman by what he or she says, when he or she says it, and how he or she says it! That tongue of yours plays an important role in the charting of your entire career. You will go to more places, happily, make more friends, and be liked by more people, if you will learn to give that tongue of yours rest and relaxation — using it only or good purposes. Then there will be no regrets.

Tomorrow Mr. Adams will talk on the subject: "What Faith Hath Wrought."

COUNSEL
He came to the office and nervously said:
"I thought you could tell me how some get ahead.
A few are successful. It's counsel I need.
I thought you could tell me the way to succeed."

I looked the youth over and then I replied:
"To get where he is every great man has tried.
Whoever the pride of success would enjoy
To win it and keep it began as a boy."

"That leader of business was known when a lad
As the best paper carrier the street ever had,
And a factory manager learned later on
He was still on the job when the shirkers had gone."

"His equipment? You have it, as all boys," I said.
"Two eyes, ears and hands; on the shoulders a head.
Just use them with courage! If patient you stay
And keep your ambition you'll get there some day."

REGULATIONS ON BUYING NEW HOMES RELAXED

WASHINGTON (AP)—Starting now you are free to buy a new house on whatever terms you can arrange, without any government supervision or regulation.

The Federal Reserve Board cut home buyers and purchasers of commercial property loose yesterday when it suspended Regulation X. That is the government order that since October, 1950, had set official limits on the amount of credit lenders could give in home and commercial property sales.
Regulation X applied only to new buildings.

HHFA Relaxes
Simultaneously the Housing and Home Finance Agency (HHFA) announced it was loosening its regulations governing credit in home sales where government loans or guarantees are a part of the transaction.

These moves followed notice by the Bureau of Labor Statistics to the Federal Reserve Board and the HHFA yesterday that housing construction during June, July and August indicated that not more than 1,200,000 units would be started during the year.

Regulation X, which went out last midnight, required a down payment of at least 5 per cent on houses selling for \$7,000 or less. It imposed ever-higher down payment requirements as the sale price of the house went up, reaching 40 per cent on houses selling for \$25,000 or more.

Emmitsburg PREPARE FOR HORSE SHOW

The various committees for the Horse Show under the sponsorship of the Lions Club reported on the progress at the meeting of the Lions Club held recently in the Lutheran Parish House. It was decided to have most of the equipment on the field by Wednesday evening in order to decide what additional equipment will be needed for Sunday, September 21, the date of the show.

Dr. D. L. Beagle is in charge of the ringside parking tickets and anyone desiring these tickets may contact him. Mrs. Helen Daugherty is chairman of the refreshment committee, which will operate a refreshment stand on the field.

Hear Missionary
The boys and girls of the De Paul Mission unit of St. Joseph's have for five years worked for the Home and Foreign Mission. On Thursday, Sister Emily, one of the six Sisters of Charity who were held prisoner by the Reds in their own hospital in Kanchow, gave the students first-hand information on the conditions in the China Missions.

Sister Emily briefly related the story of the American Sisters in Kanchow since 1924. She described the 1951 invasion of the Reds and told the students of their cruel treatment of the Chinese Catholics whose bravery she praised. The students examined several pieces of handmade embroidery.

In connection with the Red persecution, Sister said that the Communists feel that Mary is their greatest enemy and they believe her to have an army to fight against them. Bishop O'Shea, some priests and Chinese doctors have been imprisoned for having distributed literature concerning the Legion of Mary. Sister Emily warned the students that this is a religious persecution and the first aim of the Communists is to gain youth. Sister warned the students: "Pray that God will give you the strength to always remain faithful to Him—even at the cost of life."

Changchun Railroad Goes Back To China

MOSCOW (AP)—The Soviet Union announced today that it is handing back control of Manchuria's vital Changchun Railway to Communist China this year but that Russia will continue to use the Manchurian naval base of Port Arthur—190 miles west of Korea—until Japan signs a peace treaty with the Communists.

The new agreement, announced here by the Soviet news agency Tass, came at the conclusion of top-level Soviet-Chinese talks which have been going on here since Aug. 17.

Parade At Noon Attracts Many: Ideal weather prevailed for the afternoon showing of the Walter L. Main Circus on the old fairgrounds, W. High St., Friday, and the crowd at the first of the two performances was reported to be large.

JET FIGHTERS RIDDLE CITY IN MOCK WAR

COPENHAGEN, Denmark (AP)—British, Norwegian and Danish jet fighters "riddled" Copenhagen's defenses today in the first mock air attack on an Atlantic Pact capital during NATO's "Mainbrace" maneuvers.

The make-believe attack lasted 60 minutes. Defense establishments outside the city were blasted by several waves of enemy (orange) planes flying from the big Danish air base of Karup in Jutland.

Umpires announced that the assault reduced by 50 per cent the fighting capacity of Copenhagen's coastal defenses. It was not announced immediately whether defending blue planes—units of the Danish Air Force—were able to get in to the air to battle the attackers.

Flotilla Heads West
A flotilla of orange warships meanwhile headed west toward Copenhagen from the Danish island of Bornholm in the Baltic Sea. Danish submarines supported by Norwegian motor torpedo boats were attacking the "enemy" ships.

The orange flotilla is scheduled to attempt to force its way through the vital International Gateway of the Baltic tonight in order to "shell" Danish coastal fortresses. Blue naval forces will try to bar the way and Danish coastal guns are ready for a simulated artillery duel, expected to last through the night.

Westward in the North Sea, U. S. planes claimed to have damaged an "enemy" sea raider in another phase of the big war games. A big international task force set air-sea blows to eliminate the threatening warships.

GOV. STEVENSON IS STEPPING UP HIS CAMPAIGN

By REILMAN MORIN
SPRINGFIELD, Ill. (AP) — Gov. Adlai Stevenson stepped up his drive today for the estimated 15-million independent voters in the nation and set his sights as well on what he calls the "Republican progressives."

There are indications at headquarters today that the Democratic presidential candidate is re-drafting his campaign strategy.

The event that appears to have changed his position was last week's meeting between Gen. Dwight D. Eisenhower, his GOP opponent, and Sen. Robert A. Taft of Ohio. Stevenson says Eisenhower's "great crusade has become the great surrender," that Taft has "taken over" the general's campaign. And he added:

Change In Strategy
"This puts an entirely new aspect on the campaign and on the election."

He has been in long strategy conference with his chief lieutenants the past two days.

Up to this point, he has been pegging away at the claim of "disunity" among the Republicans, arguing that the Taft backers and the Eisenhower supporters constituted a "two-headed elephant." He found many phrases to twist his political enemies on that score.

Correspondents asked him, in a news conference yesterday, whether he will continue that line now that Taft and Eisenhower have held the long-awaited meeting. He replied: "That remains to be seen."

Reactions Mixed
The atmosphere here now that Stevenson's principal advisers have had time to examine the position in the GOP camp contains mixed reactions.

On the one hand, the strength of Taft's organization is well recognized. The governor's aides—insisting that Taft is in the driver's seat—believe he will bring over to Eisenhower a good deal of Republican support the general did not have before. And they feel that some backers, heretofore lukewarm and half-hearted, will become active now.

But they hope to counter that by appealing to the independent voters and to the "Republican progressives," Stevenson said in a prepared statement to the news conference.

"From what I've read and the messages I've received, I gather what the Republican progressives who fought so hard for the general at Chicago are wondering what has become of the 'great crusade.' So am I."

Another point has come into the forefront of the discussions in Springfield.

In Stevenson's camp, it is recalled that, in the pre-convention struggle between Taft and Eisenhower, the general's supporters argued that Eisenhower could attract the independent vote in the election and that Taft could not. Stevenson's advisers indicate that he will now center his fire on Taft and his views, arguing that the Republican "Old Guard" is dictating Eisenhower's position, in an effort to draw off the non-party voters who, presumably, were prepared to follow the general.

Few Red Students In Jap Colleges

TOKYO (AP) — The Japanese ministry of education says radical left-wing and Communist elements amount to less than two per cent of Japan's university students. The ministry surveyed the student bodies after a series of violent, Communist-led demonstrations last Spring in which dissident Koreans and some students played a prominent part.

A ministry white paper urged the public, particularly employers, food prepared for toddlers.

to realize that a vast majority of some 120,000 university students are hard-working and earnest. It added that 60 to 70 per cent have to earn all or part of their livelihood. Many, with their families, are in desperate economic circumstances.

Use a small amount of salt when you are preparing foods for young children; salt adds to the palatability of food and makes it more attractive to most children. Such spices as pepper and mustard, however, should not be used in the public, particularly employers, food prepared for toddlers.

IKE'S BACKERS ARE CHEERED BY BIG CROWDS

By JACK BELL
Aboard Eisenhower Special (AP) — Gen. Dwight D. Eisenhower's crowd-packed invasion of the Midwest evoked cheers today from his campaign managers.

The Republican nominee carried into possibly hostile territory in Minnesota his serious-minded bid for the presidency.

Arthur Summerfield, Republican national chairman, told this reporter Eisenhower's backers are "entirely satisfied" with the impression the general made on about a quarter of a million persons who turned out to see and hear him in Illinois and Indiana yesterday.

Takes Special Trips
Summerfield said Eisenhower will continue to deprecate the levity with which his Democratic opponent, Gov. Adlai E. Stevenson of Illinois, has described Republican reaction to many of the issues of the day.

Eisenhower will desert his campaign train temporarily this afternoon to fly to New York, where he

will speak before the American Federation of Labor Convention tomorrow. He will pick up his train again tomorrow night in Moline, Ill.

The general capped his day's campaigning with a 125-mile automobile trip, starting from the South Side of Chicago and taking in Joliet, Wheaton, Aurora and Ottawa, Ill.

The Republican nominee had his biggest show of the day in South Bend. He charmed an audience of about 2,500 persons at the University of Notre Dame by addressing all of his remarks to incoming freshmen. Then he detoured to shake hands with Frank Leahy, Notre Dame's famed football coach.

13 Whistle Stops
If Eisenhower was good in these intimate, off-the-cuff contacts with large and small gatherings, he was something less than what some Republicans regarded as adequate in his impromptu speeches at others of the 13 whistle stop appearances. His main mission for the day, according to Summerfield, was to sound a serious note that would contrast to Stevenson's quips.

Eisenhower was serious. He talked of "bungling" he said led to the Korean War. He blasted at corruption in government. He spoke of Communist infiltration in federal offices. He touched on

The newspaper Asahi says the

Horyuji Temple, one of the most treasured of Japanese national relics, is five miles from the proposed base. Both Nara and Kyoto, another shrine city, were spared by U.S. bombers during the war.

Judy finds herself "in hot water"

"Hurry it up, now, Judy! I've had my bath—but Brother and Dad'll be here any minute, and you know how they want their showers—but fast! One thing I'm sure of—they'll have plenty of hot water, too. The electric water heater will take care of that!"

"And baths aren't all it takes care of—shampooing our hair, for example. And there's always plenty of good hot water for the clothes washer—so hot and so plentiful, the clothes come out really clean."

"Remember, Mom, when we had to go downstairs and start our water heater, and make many more trips just to try to keep the water at the right temperature?"

"I certainly do—and then we had to wait! But now the hot water's there whenever we need it, for doing the clothes, the dishes, Dad's shaving, or cleaning the house. We don't even have to think about it!"

Installation of an electric water heater can be made in the kitchen close to the dishwasher-sink or laundry equipment for greater efficiency. It keeps the water hot automatically.

TOBIN LABELS T-H LAW SLOW DEATH TO LABOR

NEW YORK (AP)—Secretary of Labor Maurice J. Tobin told the American Federation of Labor today that the Taft-Hartley Law means slow death for the labor movement.

The law, he said in a prepared address at the AFL's 71st annual convention, has slowed organized labor's membership gains tremendously and has become "a matter of life or death for the American

labor movement." His speech was one of three major addresses scheduled during the day. The other two speakers were Mutual Security Administrator Averell Harriman and Federal Security Administrator Oscar E. Ewing.

Pleas for Unity

As the 800 delegates representing eight million AFL members moved into their second day's session, they met against a background pleas for labor unity from AFL President William Green and John L. Lewis.

Green appeared before the convention yesterday and urged that the CIO and Lewis' United Mine Workers (Ind) return to the fold of the AFL.

"Let it be one labor movement

in America," he urged in what has become to be almost an annual plea.

Lewis soon answered from Washington, where he was meeting with the UMW National Policy Committee. The mine chief urged that all union labor leaders meet quickly

to draw up a formula for immediate unity.

Green had no direct comment on Lewis' telegram. In his address he had accused Lewis of splitting the ranks of labor.

The speeches of Tobin, Harriman and Ewing were aimed at a convention getting ready to endorse a

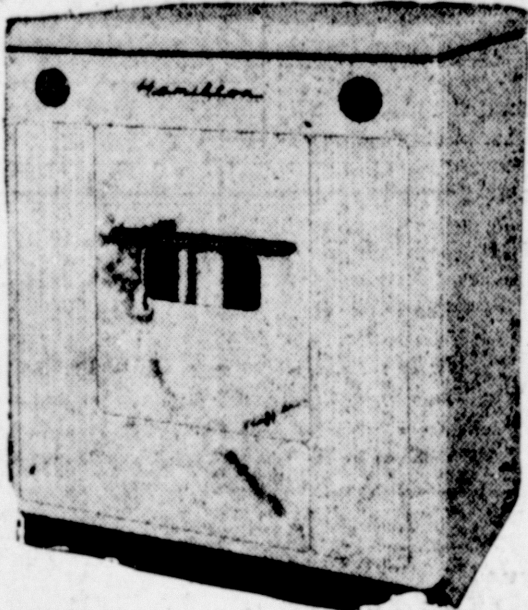

presidential candidate—and it appeared as though Democrat Adlai E. Stevenson had the inside rail.

Ed Stewart, outfielder for the Chicago White Sox, graduated from UCLA with a bachelor of education degree.

Pennsylvania Editors Claim Eisenhower Will Carry State With 52 Per Cent Of Votes

PHILADELPHIA (AP)—Newspaper editors in pivotal Pennsylvania expect Republican presidential nominee Dwight D. Eisenhower to win the Keystone State's 32 electoral votes in the Nov. 4 election.

Their composite estimate in an Associated Press survey of their views at this time is that Eisenhower will receive 52 per cent of the total vote, and his Democratic opponent, Adlai E. Stevenson 45 per cent.

Those totals are almost identical with the 1948 result when Republican Thomas E. Dewey carried Pennsylvania by 150,000 votes.

Four years earlier, Pennsylvania gave Democratic President Franklin D. Roosevelt a 105,000-vote plurality for his fourth term. Roosevelt also carried the state in 1940 by 282,000 and in 1936 by 663,000. Republican President Herbert Hoover led Roosevelt by 158,000 in 1932.

Editors Are Quered

For the AP survey of 1952 prospects, editors in each of Pennsylvania's 67 counties were asked to give their views on the probable result in their home areas. These estimates then were applied to the 1948 total vote in the counties to obtain the statewide picture as editors see it now.

A substantial number of editors said it is too early to make an accurate appraisal of the probable November result. They said uncertainties regarding the probable vote total, and the developments of the Eisenhower and Stevenson campaigns are factors clouding the situation.

Out of 61 editors listing their newspapers' political affiliation, 24 were Republican, 12 Independent Republican, 20 Independent, four Democratic and one Independent Democratic.

Forty editors said their newspapers are editorially supporting Eisenhower. One newspaper—the Scranton Times—is supporting Stevenson. Twelve others said their papers have not announced any preference.

One of the major uncertainties in the election picture in Pennsylvania just now is the probable total vote. Intensive voter registration drives are continuing in many areas of the state, notably in and around Philadelphia, with some chance that when the official totals are announced a new record may be set. Workers of both major parties, and many independent groups are participating in drives to enroll eligibles in time for the election.

The editors' estimates of the situation now listed both of the state's major metropolitan areas as likely to back the Democratic nominee, Philadelphia by approximately 70,000 and Pittsburgh by about 60,000. Nine other counties—Berks, Cambria, Fayette, Fulton, Greene, Lackawanna, Northampton, Washington and Westmoreland—also were listed in the Democratic column by margins ranging from one per cent to a 65-35 split.

Varied Majorities

All of the remaining 56 counties were listed by editors as likely to line up on the Republican side, by anywhere from a few hundred votes to a top Republican lead of 46,000 votes in Delaware County, just outside Philadelphia.

Editors generally said in the survey they expect no major change in the Pennsylvania election results this year from those of other recent years. A number who estimated that the Republicans would win in their areas said they considered Eisenhower an especially strong candidate. The Republican nominee owns a farm near Gettysburg in South-Central Pennsylvania a region that is normally Republican.

Leaders of both parties in the state have been working for harmony in support of their party ticket. Majorities of both the Republican and Democratic National Convention delegations from Pennsylvania were early supporters of the Eisenhower and Stevenson forces.

Seek Straight Votes

Most of the pre-November campaigning is expected to be for straight-ticket voting, in which the voter, by pulling a single lever on a machine or making only one

have the largest transportation establishment in Southern Pennsylvania, equipped with the most comfortable carriages. We make the Battlefield a specialty. Mr. L. W. Minnigh, the well-known Battlefield Guide and Lecturer, is connected with this establishment, with a corps of assistants thoroughly familiar with the movements of all the troops in the battle, making it possible for us to show you the Battlefield in such a manner that you can easily understand it.

For the octogenarian Battlefield guide, the days of the livery stable and the years before the automobile are recalled with pleasure. The guide recalls with a thrill to this day, the times when the sightseeing wagons would be lined up "from the Eagle Hotel to the end of Chambersburg St., to take a large excursion over the field."

Change In Tourists

The Holtzworth livery stable was begun about 1870 by Mr. Holtzworth's father, later was owned by William Ziegler and then by the

Holtzworth brothers, from about 1893 to 1918.

In 1918 Mr. Holtzworth moved to Altoona, where he and Mrs. Holtzworth resided for 25 years, returning in 1943 to Gettysburg, where Mr. Holtzworth resumed his duties as a Battlefield Guide.

The years have made many changes in the visitation to the field. Back in the years of the livery stable many of those who came here had a direct and personal interest in the field, their father, or grandfather, or an uncle having been in the Civil War. Today's tourists for the most part are persons who have little or no personal connection with the war, but come here to see a great national shrine.

TRUMAN SLAPS OPPONENTS OF HIS HEALTH PLAN

By ERNEST B. VACCARO
PHILADELPHIA (AP) — President Truman today described opponents of compulsory medical insurance as "pullbacks" who want to "go back to the horse and buggy days."

The President declared "is is a job for all of us" to bring medical and health services to the people at a price they can afford to pay.

"I would not call such a goal 'socialism,'" Truman said. "I would call it a goal of enterprise—American enterprise."

Called "Non-Political"

Truman didn't mention the Republican presidential nominee by name in a speech prepared for a luncheon of the American Hospital Association in Convention Hall.

But he quoted language used by Eisenhower in New York Sunday opposing Truman's medical insurance plan. Eisenhower advocated, among other steps, "locally administered indigent medical care programs."

Truman came here by train from Washington for the address, billed by the White House as "non-political."

Old Controversy

While he didn't mention compulsory medical insurance in so many words today, he declared:

"You can't make the best modern medicine available to everybody—as it should be—unless there is some way for people to pay for it."

Truman's national health program, embracing pre-payment of medical, hospital, laboratory and even some dental costs by increases in social security payments, has kept a controversy going between him and the American Medical Association (AMA) for seven years. Eisenhower called it a move toward "socialized medicine."

Hits At "Pullbacks"

The President told the hospital group that good health is of "first importance" to the general welfare, and added:

"That is why, ever since I have been president, I have recommended programs which I believe will provide better medical and health services for all our people."

Asserting some groups have been strongly against them, he said they are the ones who "want to pull back." He said he has constantly asked the "pullbacks" to offer a plan of their own but they want to "stand still" or "even move backward."

Horse And Buggy Days

"Even now they seem to be advocating the amazing proposition that government should have nothing to do with health except for 'locally administered indigent medical care programs,'" Truman continued.

"That's about like saying we don't need any form of social security except the county poor house. These people really want to go back to the horse and buggy days."

In his New York statement, Gen. Eisenhower contended a federal system of health insurance would check the progress of American medicine and give "regimented, assembly-line treatment" to patients.

ANGEL GABRIEL ONLY REAL RIVAL OF L. ARMSTRONG

By HAL BOYLE
NEW YORK (AP)—Hepcats today agree that Louis Armstrong has only one rival as a trumpet player—and he's out of this world.

He's an angel named Gabriel, and some Armstrong fans say:

"If Satchmo can take his horn with him when he goes, he'll blow some notes even old Gabe never heard."

At 52 "Satchmo"—a contraction of Satchel Mouth—shows no interest in making that long vertical journey just to join Gabriel in a jam session. He is a living symbol of the whole jazz age, and he's still having the time of his life.

the 15 cents he got for his first night's playing has been followed by many a \$15,000 week. And he enjoyed his old honky-tonk days as much as his later concerts in famous Carnegie Hall. Probably even more.

"I got peace of mind," he said. "I'm able to do my work, get my pay, and eat—and all I want to do is keep on going."

"I been blowing that horn 39 years and I never looked back once. You can live on this earth without putting all the time."

"I bet I made more than a million dollars, but I don't know. I just blow that horn and let my manager count the money. When a man's in love, what else can he want?"

Louie, who is also called "Pops," is in love with what he is doing, and his remark about making a million dollars is the understatement of the year. Besides his band income, Armstrong figures he has made some 2,500 recordings—"more than any musician alive."

Wrapping a towel around his whale-rivalling abdomen—he weighs nearly one-eighth of a ton now—he sat down in his theater dressing room and recalled how as a skinny boy of 13 he blew chow call on his bugle in a Negro waifs' home in New Orleans.

"Sometimes, just for fun, I'd hold off a few minutes," he said, "and the kids'd holler, 'Come on, Satchel Mouth, blow that horn. We want to scarf.' They meant they were hungry."

At 15 he picked up a trumpet in a honkytonk band, and he never really has put it down. In those days when a jazz artist really got in the groove, he started "moppin' the brow," and the more handkerchiefs he had to mop the perspiration with the more prosperous he was.

Today Satchmo is the laundryman's best friend—he uses 60 to 70 handkerchiefs on a busy day.

The program for the meeting was arranged by Miss Lucille M. Shoemaker and John H. Koons and was as follows: Group singing of the songs "I Need Thee Every Hour" and "O, Jesus I Have Promised"; Scripture lesson, Joshua 24:14-15 and Psalm 37:1-6, read by Miss Shoemaker; prayer offered by the pastor, the Rev. G. Howard Koons; special music played by Clair Feiser and Gerald Warner; discussion of the topic "Painting the Picture of Life," led by Miss Menges.

The business session was in charge of the president, Mervin K. Myers. As the offering was being received, music was played by Clair Feiser and Gerald Warner. A Bible quiz was conducted in charge of the society president. The session closed with the group singing of "I Would Be True" and the Lord's Prayer and C. E. benediction were repeated in unison. The society will meet next Sunday evening at 7 o'clock at the church.

EARLY STRIKE BY SOFT COAL MINERS SEEN

WASHINGTON (AP)—John L. Lewis is expected today to be shaping up an early strike of about 300,000 Eastern soft coal miners in a divide-and-conquer strategy against coal producers.

But the United Mine Workers chief said a walkout isn't likely to produce a national emergency among coal users.

Breaking his silence on a month of private negotiations, Lewis sternly reported to newsmen yesterday he has reached a "most disturbing" impasse with Northern soft coal operators, with only four more days to go before their present contract expires Saturday.

Similarly, Lewis said, "no conclusions" have been reached in frequent talks with Southern soft coal producers, whose contract expires Sept. 30.

Lewis plainly implied both groups of mines would be shut down as their contracts run out. Traditionally, the miners don't work without a contract.

Together, the two groups turn out about 70 per cent of the nation's coal—or seven million tons a week. About 200,000 miners work in the Northern group, 100,000 in the Southern.

Hard Coal Pact Near
Contrasting with this grim picture the mine chief stressed that Western and Midwestern soft coal mines which are not members of the (Northern) Bituminous Coal Operators Association "will be permitted to work."

Also, Lewis reported, he expects to reach an agreement this week with the Pennsylvania anthracite (hard coal) industry, whose contract also expires Sept. 30. His plan is for both these groups, which he said employ about 140,000, to continue producing. They would accept whatever terms are negotiated later with the bigger Northern and Southern soft coal associations.

Lewis declared the present national coal stockpile of about 79-

Abbottstown

ABBOTTSTOWN — Mr. and Mrs. Claude Orndorff left recently for Winter Haven, Fla., where they will make their home due to Mr. Orndorff's health.

Grove Haines and family landed in New York on Tuesday. Mr. Haines is in Italy for a year, working for the State Department. They resided in Milan. Mr. Haines is now at home with his mother, Mrs. Helen Haines, while his wife and daughter attended the wedding of Mrs. Haines' niece.

Miss Dorothy Hoover, a nurse in training at Temple University, Philadelphia, is visiting her parents, Mr. and Mrs. Helmer Hoover. Mr. and Mrs. Arson Miller have moved from the home of Mrs. Margie Hoke, her granddaughter, and family. Mr. and Mrs. Paul Breighner will move into the vacated apartment.

Mr. and Mrs. Robert Strausbaugh spent several days at Wellsboro visiting the Grand Canyon. Their daughters, Joyce and Gloria, visited their uncle and aunt, Mr. and Mrs. Charles Moul, while their parents were away.

314,000 tons—plus continued if not expanded production in the Western and hard coal mines—would "preclude any possible national emergency." The stockpile alone would supply normal needs for 85 days.

May Dodge TH
The mine chief apparently had an eye cast to skirting the Taft-Hartley Law, which permits the government to get court orders against a strike that creates a national emergency.

Also, by permitting the generally smaller Western mines to operate, Lewis obviously hoped to put the screws on the competing big Eastern commercial mines and the "captive" mines owned by the steel industry for that industry's own use.

Lewis reportedly is asking for a boost from \$16.35 to about \$18 in the standard basic daily pay for miners, an increase in the employer's contribution to the miner's pension fund, and perhaps a reduction from an eight-hour day to seven.

ME CITED FOR SAFETY RECORD

PITTSBURGH — Metropolitan Edison Company today was honored by the Pennsylvania Electric Association for having made the best safety record of any of Pennsylvania's large power companies during the past year. R. D. Jones, Metropolitan Edison's safety director, was presented with a bronze plaque during the opening session of the association's annual meeting in the Hotel William Penn.

It was the second consecutive year and the 11th time in 14 years that Metropolitan Edison Company won the coveted safety award. Victory was won with a frequency rate of 2.73 with second place going to Pennsylvania Power and Light Company for a rate of 3.07 and third place to the Pennsylvania Electric Company on a record of 3.83. The frequency rate refers to the number of accidents per manhours worked.

Metropolitan Edison also was cited for completing the year without a single shock or burn lost time accident.

Awards were made by L. F. Hemenway of Pennsylvania Power Company, chairman of the association's Accident Prevention Committee. He pointed out that the average accident rate for electric companies in Pennsylvania have been consistently lower than the national average and said it was due in large measure to the detailed attention and extra effort which management of the companies put forth to reduce accidents. He commended ME for its safety record, achieved, Hemenway said, "because management is vitally interested in the welfare of its employees and strives to provide the safest possible working conditions."
